

**AUTOMATIC TAKE UP  
ALL-ELECTRIC DRIVE**

**IMPROVED, AUTOMATIC 16mm SILENT OR SOUND  
CINE PRINTER**

**FOR MAKING COLOR OR BLACK-AND-WHITE COPIES**

**FOR USE BY PROFESSIONAL MOVIE MAKERS,  
SCHOOLS, LABORATORIES, TV STATIONS**

**Designed To Make Sharp, In-Frame Duplicates**

This fully automatic Cine Printer is custom made with the utmost precision and care and offered at a modest price. It compares in results with other quality printers selling at a much higher cost. Here is a printer that requires a minimum of care and attention in printing.

A complete unit, the Cine Printer incorporates the following exclusive features • automatic take-up arms • self-adjusting compensating clutch permits smooth easy operation • filter receptacle for color printing • DC power pack for printing lamps • new improved film drive • stainless steel scratchproof self-locking film gate that holds film firmly and in line.

Care and maintenance of the Automatic Cine Printer is minimum. The constant special speed motor is designed for hours of continuous operation. No batteries are required... this printer is entirely electrically operated including take-up arms... simply plug into any 110V 60 cycle outlet. The sound and picture may be printed at the same time or separately.
